DELIVERING SUCCESS FOR OUR CLIENTS

NEARLY \$10 MILLION RECOVERY FOR PROFESSIONAL MALPRACTICE AND SECURITIES CLAIMS

We represented investors who, based on the defendants' misrepresentations and inadequate diligence, were induced to make a significant investment in exchange for stock in a soon-to-be public company. We utilized our resources and expertise to fight-off nearly every conceivable jurisdictional, procedural, and substantive challenge possible, leading to settlements of nearly \$10 million.

\$2 MILLION-PLUS RECOVERY IN CONSTRUCTION DEFECT LITIGATION

We represented the developer of a large apartment construction project in claims against the general contractor, subcontractors, and related professionals for design and construction defects that caused water damage throughout the project. The case involved 15 different parties, years of litigation, and multiple mediations. Ultimately, we resolved the entire action, recovering millions for the developer.

\$14.5 MILLION JURY VERDICT IN COMPLEX SHAREHOLDER DISPUTE

We represented an investor in a commercial real estate venture who had been the victim of a corporate "squeeze-out" by the majority partner. The multi-party case involved claims for fraud, breach of fiduciary duty, and breach of contract. The Group's resources allowed our client to go toe-to-toe with a far wealthier opponent for more than four years of litigation and win a jury verdict for \$14.5 million.
